Rapid Damage Assessment

Evolve your catastrophe response with an end-to-end claims management platform

Challenges across catastrophe lifecycle

Challenges

- Continuously evolving event
- Uncertainty of impact

- Understanding damage severity
- Allocation of adjusters

- Lack of consistent loss insights
- Delayed claims filing

Implications

- Difficulty to track impact
- Ineffective resource planning

- Ineffective prioritisation
- Increased Loss Adjustment Expenses (LAE)

- Longer claim cycle
- Higher number of litigations

Solutions for catastrophe response

RDA Solution

- Single source to monitor event lifecycle
- Regional & portfolio level estimated impact

- Individual property level damage severity
- Categorisation based on damage type

- Detailed loss report for insured properties
- Source of truth for delayed claims

Impact & Beyond

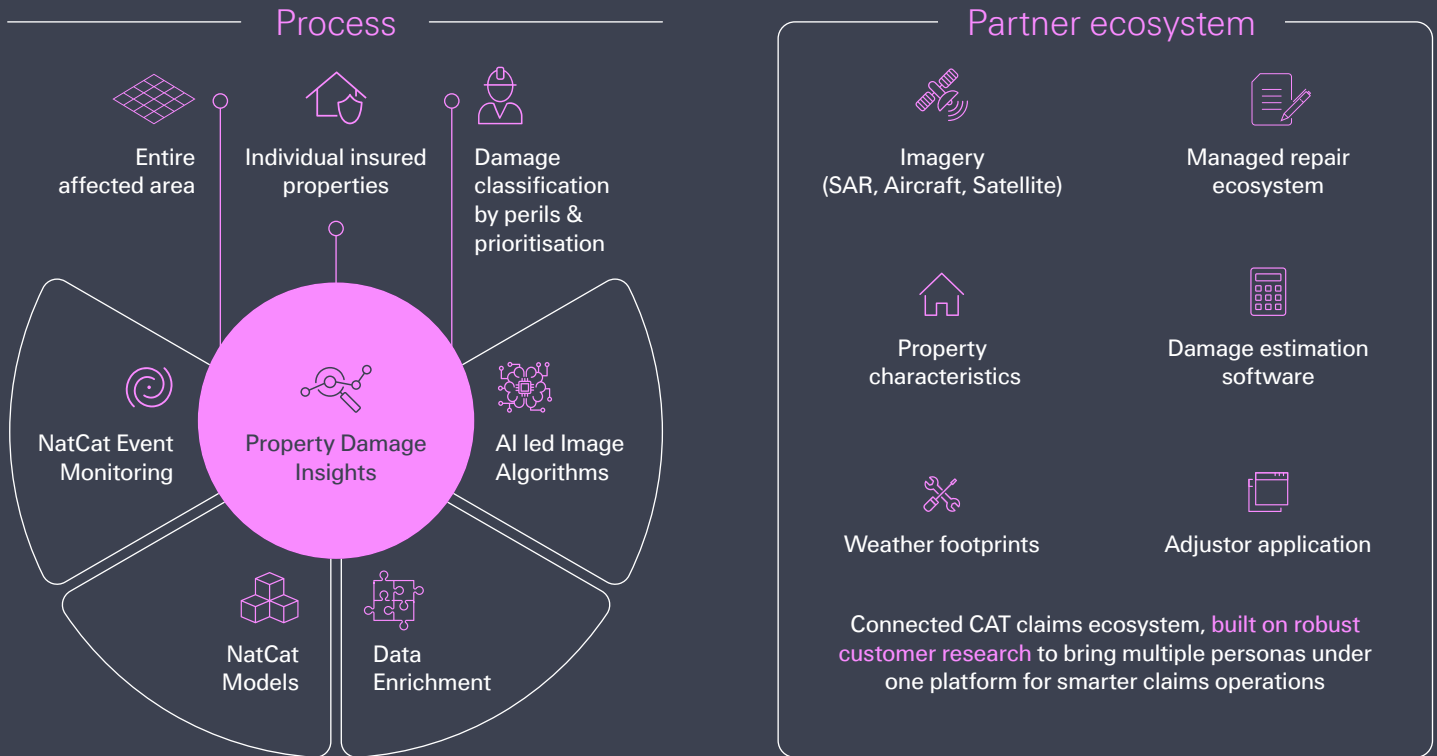

- Rapid claims operation planning
- Accurate workforce management

- Reduced LAE from efficient claims triaging
- Improved customer satisfaction

- Faster adjustment and shorter claims cycle
- Potential positive impact to litigation risks and claims leakage

AI-Driven Claims Assessment Platform

Powered by Swiss Re expertise, proprietary models and a strong partner ecosystem

There are a lot of tools in the market that tell you where the hurricane is, but there are not many tools that help you respond and prioritize. RDA had a significant impact over our customers' lives during hurricane Ian by helping us create a rapid, targeted and data driven response. Early intelligence provided by RDA helps us serve our customers who depend on us, storm after storm, in their moment of greatest need.
